COWBOYS' FINEST

FIT GUIDE

- YOKE:** Take your measurement from edge of shoulder to edge of shoulder across the back at A.
- CHEST:** Measure around the body at B. Take measurement SNUG. No allowances.
- WAIST:** Measure around the body at C. Take measurement SNUG. No allowance.
- NECK:** To measure the neck, open the collar and place the tape around the neck where the collar would rest. Take loose measurement at this point for a comfortable fit. This gives the figure you should enter on the order form as "NECK".
- NOTE.** The collars on new shirts shrink to the correct size.
- SLEEVE:** Measure sleeve length from center of the collar in the back, across the point of shoulder down the arm to the point desired just below the wrist (measurement D).
- HEIGHT/
WEIGHT:** Both of these figures are very important and should be shown on the order.
